Parameters

Phantoms and simulators
Quantitative unit

Ultrasound phantoms

ks

Realistic reproduction of a breast made from ultrasound material with two cysts for realistic punctures and aspirations.

- Easy to use
- Cost effective
- Realistic echogenicity

The material of the  $SONOtrain^{m}$  trainer simulates the feel of real soft tissue for carrying out palpations and injections and shows realistic texture and echogenicity on ultrasound images.

The SONOtrain  $^{\text{TM}}$  trainer is an excellent teaching tool for basic training and for improving dexterity and hand-eye coordination skills.

Please note: an ultrasound device is not part of the delivery content.
