Parameters

Weight [kg]	91
Height [cm]	185
Quantitative unit	ks

Rescue Randy was developed for lifelike adult or juvenile patient handling, transportation and extrication training. Suitable for use in situations that are too hazardous or uncomfortable for human volunteers. Fully articulated for positioning in widely diversified training environments.

Features include:

185cm tall

Articulated joints

Weight distribution according to the human weight distribution chart

Made of durable vinyl with 4,100 lb. test plastic-coated cables

Used by the U.S. Military, Fire and Police Departments, Safety Teams and Emergency Personnel for rescue and extrication from pole tops, confined spaces, collapsed buildings, smoke rooms and ladder carry-down protocols worldwide.
