P plus package for extended battery performance tests according to EUCAR hazard level 5

Order code: 2103.PKGPP

Information about product price on demand

Parameters

Quantitative unit

ks

Various specific battery parameters, such as state of charge, are tested in different temperature ranges. These tests are performed within a safe temperature range for the battery.

Retrofits for the instruments

- MK 115/240/720
- MKF 115/240/720
- MKT 115/240/720
- MKFT 115/240/720
- KB 115/240/400/720
- KBF 240/720
- KMF 240/720/1020

Includes

- Independent safety thermal protection class 2 switched when 120°C is reached
- Temperature range limitation adjustable on the unit controller up to 110°C
- Stainless steel pressure relief damper installed in the middle with the ceiling
- Improved door locking mechanism with reinforced hinges
- Connection for inert gas
- Temperature monitoring in the test area
- CO2 extinguishing
